- (d) Clause 5.1.(b) above will not apply to sections of road on the correct route that are clearly unsealed as a result of current or ongoing road repair or maintenance

5.2. Recording of unmanned Controls

In accordance with NTSR-NA Article 5.1 (c) (iv). Where the Board is an 'M' or 'Z' then that letter (M or Z) shall also be recorded (e.g. M25 or Z2).

5.3. Observers

At certain points around the course there may be Observers checking compliance with the correct route. Any Crews detected on the wrong route will be given a penalty as listed in Clauses 7.1 or 7.2. All Control Officials are deemed to be Observers and Judges of Fact.

6. Route Instructions

6.1. For the Tour and Social Run Categories

For these two Categories, the Event will predominately use route charts. Some simple map reading may also be used. A map will be attached to the relevant Division's Instructions as required.

6.2. For the Masters and Apprentices Categories

The Event will be run under "Shortest Mapped Route" VIA to VIA requirements as defined in the NTSR-NA 2.3.

- (a) NTSR-NA 4.6 (a) (ii) is modified so that the Out of Bounds conditions will apply as defined in the Route Instructions or as notified in other Event documents.
- (b) You may only use roads that are shown on the Official Maps or those that may be advised as 'deemed' mapped roads in the Route Instructions or other documents. Where the generic word "road" is used in the Route Instructions it is deemed to apply to all mapped routes, roads and Freeways etc. as defined in the Map Key or Legend relevant to the supplied Event Maps.
- (c) NTSR-EG 1.13 (a) (vii) is modified so that when instructed in the Route Instructions to 'Pass' a specified mapped feature or word you must use the closest mapped road to that feature or word.
- (d) Junctions identified in the Route Instructions with a clock (time) reference must be 'entered on the hour hand and departed on the minute hand'.
- (e) The Event Maps will be provided at Event Registration. The Event Maps will be listed in the NAVIGATION NOTES, also issued at Registration, and it is recommended that you rely solely on the provided Maps.

6.3. For all Categories.

All Controls must be entered and exited according to the directions given in the Route Instructions. A road may be crossed but not used in the opposite direction at any time during each Division, unless specifically permitted in the Instructions to do so.

ROAD CARDS will be issued to all Crews at the beginning of a Division and each Crew is solely responsible for its ROAD CARD. Officials may, at certain locations, retain the current ROAD CARD and issue a new one. This will generally occur at the break between Divisions.

Various Observations must be recorded onto the ROAD CARD. These include answering questions and/or recording information from unmanned Controls.

Questions may not be listed in order of distance.

Answers to numbered questions must be recorded in the **SIMILARLY NUMBERED BOXES** on the ROAD CARD. If the answer to a question is found missing by the set-up vehicle, an upside down VRC will be placed at that location. The information on this VRC should be written in the place reserved for the answer to the original question. Answers to questions will only be found on the left-hand side of the road.

Distances at Major Controls, some VIAs and question locations will be given in both kilometres and miles. The conversion factor is 1 km = 0.621 miles.
