Apprentices

In the Apprentice instructions there are 3 kinds of helpful hints in ALL stages (i.e. not just this one!)

1. Shaded areas or (items in brackets) or in bold are extra bits added to help and clarify instructions.
2. Instructions in ***bold italics*** refer to the ***actual road***, not the map. They are there to help you find intersections etc.
3. Anything ~~crossed out~~ was there for the Masters, but has been superseded by 1. or 2. above, or is just plain unhelpful.
